Abe's Garden Club is an onsite day program for individuals living at home in early to mid stages of dementia who may benefit from the exceptional care and top-notch engagement activities offered to residents.

On any given day, Club members might enjoy creating art inspired by other cultures; singing to reminiscent songs; exercising on a recumbent elliptical machine; making cookies; harvesting tomatoes from the courtyard; arranging flowers; tapping along in the drum circle; writing greeting cards; or playing with the resident cat, Sylvester.
